

# 2022 Redolent Wine REVERB Pinot Noir

## REVERB

Reverb is a delightful creation born from the union of two barrels that didn't quite find their place in our other blends but played very well together. It's a wine that captures the essence of a light, fun, and quaffable real Pinot Noir. Perfect for those seeking an easygoing and enjoyable wine experience.

## 2022 VINTAGE DESCRIPTION

The 2022 vintage in the Pacific Northwest began worrisomely. In the Spring, we faced cold, wet weather and persistent frost conditions that destroyed young primary buds, resulting in a 30 to 50 percent decline in crops in some AVAs. Not every vineyard was affected, but everyone was concerned. However, as the warm weather arrived, the vines made up for it with a strong secondary fruit set in most vineyards. Still, the early conditions caused challenges in the vineyard that required diligent vineyard management. An ideal summer with almost no rain and warm days with little heat stress allowed the vines to catch up. And finally, a warm and dry Fall brought a much needed balance to the vintage. Sunny days and dry weather well into October made for perfect harvest conditions. Fruit quality was outstanding, with beautiful, ripe flavors and ideal acidity. Most of the wines will be lower alcohol with amazing purity and freshness. Despite a shaky start, the 2022 vintage ultimately made a spectacular comeback to a classic style vintage reminiscent (or dare we say redolent) of Oregon's past.

## AROMA & FLAVORS

On the nose, aromas unfold of red cherries and strawberries and a hint of bramble. A burst of fruity goodness emerges on the palate, featuring the red berries, with the brightness of raspberry and cranberry. Light and easy-drinking, this Pinot Noir carries a fun and playful character that makes it a delicious companion for any occasion.
